

Gwynndaf Pritchard Roofing

Asbestos Procedure

Work on asbestos containing materials are not to be conducted by any of Gwynndaf Pritchard roofing employees

- Gwynndaf Pritchard roofing will obtain confirmation from the Client, if practicable, that the nature of the work does not involve exposure to asbestos prior to work commencing. If the presence of asbestos is unknown, an appropriate Type 2 or Type 3 survey will be conducted to establish, or refute, the presence of Asbestos Containing Materials.
- If asbestos is discovered, or suspected, during work the following action is to be taken:
 1. Work is to cease, the area secured and measures put in place to ensure that asbestos remains undisturbed.
 2. The Managing Director or Contract Supervisor are to be informed in order to ensure that an assessment is undertaken and an action plan developed before work is allowed to continue.
- Gwynndaf Pritchard Roofing will provide Asbestos awareness training to each employee that potentially could come in to contact with asbestos containing materials.

All employees are to sign and date below to confirm that they have read and understood Gwynndaf Pritchard Roofing Asbestos Procedure.
